FULL TIME WORK EXPERIENCE

CARS24

GURGAON, INDIA

Ai Program Management Intern

FEB 2026 – PRESENT

- Designed LLM-based Customer support chatbot workflows with structured prompts for negotiation, support, and ticket handling.
- Managed end-to-end chatbot lifecycle, integrating MessageBird and Langfuse for deployment, monitoring, and customer-facing support.
- Built telemetry-driven auditing pipeline (Snowflake → LLM evaluation) integrated with **Power BI** dashboards to proactively identify at-risk users and surface migration guidance.
- Automated internal workflows via **Power Automate, AppScript and n8n**, reducing manual load and standardizing cross-team communication processes.

TECHCURATORS

GURGAON, INDIA

Technical Program Manager Intern (Product)

JUNE 2025 – NOV 2025

- Drove end-to-end execution for **3+ client projects**, aligning product, design, and development teams.
- Conducted **market research** and gathered **user insights** to refine product strategy and feature prioritization.
- Created **product requirement documents (PRDs)** and maintained roadmaps using Notion and Jira.
- Led **cross-functional communication** through daily stand-ups and sprint reviews to ensure smooth delivery.
- Leveraged AI tools (ChatGPT, Notion AI) to enhance documentation and decision support.

KNOWLEDGE SPATIAL

GURGAON, INDIA

Software Development Intern

MAY 2024 – AUG. 2024

- Collaborated on building a real-time geospatial product with OpenLayers & PostgreSQL, enabling interactive multi-view maps.
- Delivered product-ready documentation and logging systems, enhancing reliability, user experience, and team handoff.

PROJECTS

ANONSHARE

JAIPUR, INDIA

OCT. 2024 – NOV. 2024

- **Product Leadership:** Led end-to-end development of anonymous file sharing platform.
- **Feature Innovation:** Developing LocShare for secure peer-to-peer local network transfers with password protection.

ADOPTABLE.IN

JAIPUR, INDIA

MARCH. 2025 – PRESENT

- **Developing**, a non-profit blockchain-powered pet adoption and welfare platform integrating NFT-based pet identities, smart contracts for adoption, and tokenized rewards.
